School type	AI / year	Approx free allowance (messages / interactions)*
Small School Subscription	£150	~10,000 – 25,000
Standard School Subscription	£500	~30,000 – 80,000
Large School Subscription	£1,000	~60,000 – 200,000

* Approximate (Arbor). For 800 pupils: Standard (£500) or Large (£1,000) if free allowance is exhausted. Highlighted = likely tiers.
Arbor AI features: Ask Arbor · admin drafts · Auto Absence · student summaries · Ofsted Inspection Companion — arbor-education.com/arbor-ai/

WeaveONE AI (included in SC360 public list price — no separate AI subscription on list)

- Ask AI (SEND law + pupil data) · EHCP vision import · forensic audit · smart goals · dynamic / AI reports
- AI lesson planner · governor narrative · per-school AI metering · PII scrub before every AI call
- No separate public "AI subscription" line item on SC360 list (usage metered; allowances apply by product)

Headline — secondary 800 / 80 SEND

SC360 £7,139/yr · Arbor Perform £13,440/yr · Perform + Options + BI + Large AI £16,190/yr
SC360 ≈ 1.9× cheaper than Perform alone · ≈ 2.3× cheaper than full Perform + add-ons + Large AI

Caveat: SC360 is SEND-depth software, not a full MIS replacement. Schools keeping Arbor for census/admissions/exams and adding SC360 pay both. Fair feature compare for provision map / inter-options = Arbor Perform (+ Options for timetable). Multi-school Arbor discounts (p.2) do not apply here.
